Object, Slot, and RPL Viewers

Presenter: Mitch Clement

2018 RiverWare User Group Meeting

February 1-2, 2018
Object Viewer

- Objects are tabs in single dialog
- Same functionality as object dialog
- Undock/re-dock objects
- Optionally close slots when closing object
- Reopen with same set of objects
Slot Viewer

- Multiple series slots – single dialog
- Undock/re-dock
- Create SCT from Slot Viewer
RPL Viewer

- Rules/functions are tabs in single dialog
- Same functionality as rule/function editor
- Undock/re-dock rules/functions
- One RPL Viewer per RPL Set
RPL Viewer – One per Set
